Physiogel's skin-friendly creams and lotions, formulated with pure and gentle ingredients, are **hypoallergenic**, **noncomedogenic**, and free from fragrances, preservatives and colorants.

Need a solution for dry, sensitive skin?

introducing
PHYSIOGEL

Inspired by skin's natural structure and clinically proven to help repair and restore the skin's natural moisture barrier.

Skin's outer layer contains natural fats called **lipids**, which help **seal in moisture** and **protect skin from irritants**. The disruption of this lipid matrix through allergens can lead to moisture loss, making skin prone to dryness and sensitivity. Our **Physiogel BioMimic Technology** contains lipids that are similar to those found naturally in skin that help repair and **strengthen skin's moisture barrier**, restoring the hydration your skin needs to stay strong and visibly healthy. Because we believe everyone should feel comfortable in their own skin.

NEW

BioMimic
Technology™

It works naturally with skin, helping to replenish lost lipids to help strengthen your moisture barrier so your skin feels less dry and sensitive.

Triple Action:
Repair • Restore • Hydrate

whitens while you brush!

one pump for whitener and booster... for a dual effect!

WHY WE SEPARATE THE BOOSTER GEL AND THE WHITENING TOOTHPASTE

When booster and toothpaste combine, an accelerated whitening process is activated. Keeping them separated until you brush ensures toothpaste's maximum performance. If mixed in container, booster action would be less effective by the time you brush.
